Education

BCA (Bachelor of Computer Applications)	2021-2024
Saurashtra University - Rajkot	

MCA (Masters of Computer Applications)	2024-2026
Jain (Deemed-to-be University) - Banglore	

Experience

Software Engineer (React Developer)　　　　　　　　OCT 2024– Present
Dvij Infotech LLP.　　　　　　　　　　　　　　　　　　　　　　Ahmedabad

- Developed and optimized scalable React & Next.js applications by integrating REST APIs, implementing state management (Redux Toolkit/Zustand), and building responsive UIs with Ant Design & Tailwind CSS.

June 2024 – OCT 2024
Ahmedabad

Intern

Dvij Infotech LLP.

- Assisted in building React.js dashboards with REST API integration and contributed to bug fixes & feature enhancements in an Agile team environment.

Projects

dashboard.swipe.ai

- dashboard.swipe.ai is a merchant portal designed for e-commerce brands to manage package protection, track orders, handle claims, and analyze shipping performance—all in one place.

- Integrated RESTful APIs for real-time user interaction data, including swipe metrics, user preferences, and

engagement trends, enhancing decision-making accuracy

Nexura - ecommerce website

- A React-based e-commerce platform for shoes, integrated with Firebase for real-time data management and secure user authentication, offering a seamless shopping experience

- https://nexura-nine.vercel.app/

HRMS - Employee Time Tracker

- A custom Next.js application built with TypeScript for tracking employee work hours, attendance, and productivity.
